

Problem 2&3: Voting Method Recommendation

(A) Key Statistics Comparison

(B) Judges' Save Bypass Effect

(C) Final Recommendations

FINAL RECOMMENDATIONS

✓ PRIMARY: Use RANK SYSTEM

- Lower fan bias (53.1% vs 61.0%)
- Fewer controversies (1 vs 3 cases)
- Variance stabilization effect

✓ SECONDARY: Include Judges' Save

- Allows judge intervention in ~38% cases
- Requires "Technical Threshold" modification

⚠ WARNING: Current Save has "Bypass Loophole"

- Bobby Bones never in Bottom 2 despite low scores
- Proposed fix: Auto-Bottom-2 after 2 consecutive weeks with lowest judge score

RECOMMENDED CONFIGURATION:

RANK + Judges' Save + Technical Threshold Rule
